# NATIONAL CYBER SECURITY AWARENESS MONTH OCTOBER, 2021

75  
Azadi Ka  
Amrit Mahotsav

Be aware of personal information when you post in global address groups

Be careful when you are posting your personal information in global address groups. Because phishing attacks can be done by hacker using this information. Your creditcard, debitcard and all electronic cards can be cloned using these personnel information. So prior to your filling any personnel information, verify that the request for information is genuine. Otherwise you may pay a big price for not doing so
